Meeting Started at 2:50 PM

Approval of Previous Minutes:

Previous meeting minutes were discussed, reviewed, and unanimously approved.

Agenda Items:

GitHub Repository Updates:

- Added user stories and tasks to the GitHub repository.
- Discussed proper formatting and consistent labeling for user stories and tasks for better clarity.

Program Updates:

- Agreed to implement functionality allowing basic users to create channels and transition into admin roles.
- Evaluated potential challenges in integrating role transitions into the system.

Product Backlog Completion:

- Reviewed the product backlog and ensured all essential features and user stories for Sprint 1 were accounted for.
- Identified a few gaps and planned to address them in upcoming meetings.

Repository Structure and Branches:

- Discussed issues with the repository structure and finalized improvements.
- Created dedicated branches for frontend, backend, and testing to streamline development.

Votes:

Voted on the main colors for frontend styling:

- **Yellow buttons** and a **gradient background** featuring **white, purple, and grey** (subject to change)

Next Meeting Agenda:

Discuss and finalize the third feature to be implemented.

Begin implementation of the third feature.

Address remaining tasks for Sprint 1, focusing on:

- Login and register page styling.
- Overall style refinement.
- ReadMe file review and updates.

Next Meeting:

Date and time to be determined.

Meeting Adjournment Time:

Friday January 31st 2025 -
